

LED LENSER®  **L5**
 The little one for traveling light

Advanced Focus System

LED	High End Power LED
Length	130 mm
Weight	114 g
Luminous flux	85 lm*
Batteries	1 x AA 1.5 V
Energy tank	4.2 Wh***
Burning life	3 h**
Beam distance	150 m*

Technical Data

The LED LENSER® L5 is small, lightweight, and operated with only one standard AA battery. The LED LENSER® L5 weights so little because it consists of high-quality plastic. The lamp affords maximum grip, and our patented**** Advanced Focus System provides ideal lighting at all times. On shorter trips and hikes, the LED LENSER® L5 has you well prepared for any eventuality.

Included in delivery: 1 x AA battery, hand strap

Item Nr. 7005

* Luminous flux (lumens) resp. max. beam distance (meters) in the brightest function when switching on with one fresh alkaline battery.
 ** Average values that may vary $\pm 15\%$ depending on type of chip and battery.
 *** Average hours of burning life as measured until residual luminous flux amounts to 1 lumen.
 **** Theoretical value of the capacity in Watt hours (Wh). This applies to the fully charged single use or rechargeable battery/batteries provided with the item in question.
