Batteries	3 x AAA
Energy reservoir	5.4 Wh**
Lighting duration	7 hours*
Lighting range	142 yd*
Technical data	

LED LENSER® SEO 5 is the perfect choice for power-hungry users. The lighting performance, with up to 180 lumen\*, has been doubled in comparison with the LED LENSER® SEO 3 starter model. The lighting functions are activated directly at the lamp head which can also be swiveled. The infinite dimmer function is particularly practical since it remembers the last setting made. The light cone is regulated using the Advanced Focus System and achieves a surprising lighting range in the focused setting. The operating time of the LED LENSER® SEO 5 is more than sufficient at around 25 hours at a setting of approximately 20 lumen. The LED LENSER® SEO 5 is available in two versions and can, like all of the lamps in the series, be adapted to suit the user's individual style using colored headbands.

Scope of delivery: Batteries, washable headband, snap-hook, operating instructions

**Gray Item No. 6105 | Red Item No. 6106**

\* ANSI FL1 (white LEDs, 100 % mode)

\*\* Calculated capacity value in Watt hours (Wh). This applies to the battery(ies) contained in the relevant article in the delivered state or, for flashlights with rechargeable battery(ies), when the batteries are in a fully charged state.
