Weight	3.70 oz
Luminous flux	220 lm*
Batteries	Lithium ion battery
Energy reservoir	3.2 Wh**
Lighting duration	5 hours*
Lighting range	142 yd*
Technical data	

For users with an environmental awareness, LED LENSER® SEO 7R is the first choice. The top model in the LED LENSER® SEO series is rechargeable, focusable and offers even more than the other models in terms of lighting power.

The automatic dimming function in accordance with reflected light is particularly innovative. If you occasionally look down at a map, you do not need to manually reduce the intensity of the light. A sensor recognizes the reflected light and automatically triggers the dimmer to prevent dazzling. The LED LENSER® SEO 7R has a modern design which unites the best functions of the series and, thanks to the rechargeable battery pack, is also particularly cost-efficient to operate.

Scope of delivery: Battery packs, charger, washable headband, snap-hook, operating instructions

**Item No. 6107-R**

\* ANSI FL1 (white LEDs, 100 % mode)

\*\* Calculated capacity value in Watt hours (Wh). This applies to the battery(ies) contained in the relevant article in the delivered state or, for flashlights with rechargeable battery(ies), when the batteries are in a fully charged state.
